

Qrfpr-Flox

Nomenclature	C57BL/6Smoc- <i>Qrfpr</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Qrfpr	Synonyms	AQ27, Gpr103, SP9155
	NCBI ID	229214
	MGI ID	2677633
	Ensembl ID	ENSMUSG00000058400
	Human Ortholog	QRFPR

Model Description

These mice carry loxP sites flanking target exons of Qrfpr gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Qrfpr gene.

*Literature published using this strain should indicate: Qrfpr-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
