

Avpr1b-Flox

Nomenclature	C57BL/6Smoc- <i>Avpr1b</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Avpr1b	Synonyms	VIBR, VPR3, AVPR3, V3/V1b
	NCBI ID	26361
	MGI ID	1347010
	Ensembl ID	ENSMUSG00000026432
	Human Ortholog	AVPR1B

Model Description

These mice carry loxP sites flanking target exons of *Avpr1b* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Avpr1b* gene.

*Literature published using this strain should indicate: *Avpr1b*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
