

Atrn-Flox

Nomenclature	C57BL/6Smoc- <i>Atrn</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Atrn	Synonyms	mg, Mgca, AW558010
	NCBI ID	11990
	MGI ID	1341628
	Ensembl ID	ENSMUSG000000027312
	Human Ortholog	ATRN

Model Description

These mice carry loxP sites flanking target exons of *Atrn* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Atrn* gene.

*Literature published using this strain should indicate: Atrn-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
