

Aldh1l2-Flox

Nomenclature	C57BL/6Smoc- <i>Aldh1l2</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Aldh1l2	Synonyms	mtFDH, D330038I09Rik
	NCBI ID	216188
	MGI ID	2444680
	Ensembl ID	ENSMUSG00000020256
	Human Ortholog	ALDH1L2

Model Description

These mice carry loxP sites flanking target exons of Aldh1l2 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Aldh1l2 gene.

*Literature published using this strain should indicate: Aldh1l2-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
