

Atrnl1-Flox

Nomenclature	C57BL/6Smoc- <i>Atrnl1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Atrnl1	Synonyms	Alp, Atrnl, Atrnlp, AI504415, AW555641
	NCBI ID	226255
	MGI ID	2147749
	Ensembl ID	ENSMUSG00000054843
	Human Ortholog	ATRNL1

Model Description

These mice carry loxP sites flanking target exons of Atrnl1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Atrnl1 gene.

*Literature published using this strain should indicate: Atrnl1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
