

Dhh-Flox

Nomenclature	C57BL/6Smoc- <i>Dhh</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Dhh	Synonyms	C78960
	NCBI ID	13363
	MGI ID	94891
	Ensembl ID	ENSMUSG00000023000
	Human Ortholog	DHH

Model Description

These mice carry loxP sites flanking target exons of Dhh gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Dhh gene.

*Literature published using this strain should indicate: Dhh-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
