

Agxt-Flox

Nomenclature	C57BL/6Smoc- <i>Agxt</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Agxt	Synonyms	AGT, SPT, Agt1, Agxt1
	NCBI ID	11611
	MGI ID	1329033
	Ensembl ID	ENSMUSG00000026272
	Human Ortholog	AGXT

Model Description

These mice carry loxP sites flanking target exons of Agxt gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Agxt gene.

*Literature published using this strain should indicate: Agxt-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
