

Alms1-Flox

Nomenclature	C57BL/6Smoc- <i>Alms1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Alms1	Synonyms	bbb
	NCBI ID	236266
	MGI ID	1934606
	Ensembl ID	ENSMUSG00000063810
	Human Ortholog	ALMS1

Model Description

These mice carry loxP sites flanking target exons of *Alms1* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Alms1* gene.

*Literature published using this strain should indicate: *Alms1*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
