

Hao1-Flox

Nomenclature	C57BL/6Smoc- <i>Hao1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Hao1	Synonyms	GOX, Gox1, Hao-1
	NCBI ID	15112
	MGI ID	96011
	Ensembl ID	ENSMUSG00000027261
	Human Ortholog	HAO1

Model Description

These mice carry loxP sites flanking target exons of Hao1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Hao1 gene.

*Literature published using this strain should indicate: Hao1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
