

Aaas-Flox

Nomenclature	C57BL/6Smoc- <i>Aaas</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Aaas	Synonyms	AAA, GL003, ADRACALA, D030041N15Rik
	NCBI ID	223921
	MGI ID	2443767
	Ensembl ID	ENSMUSG00000036678
	Human Ortholog	AAAS

Model Description

These mice carry loxP sites flanking target exons of Aaas gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Aaas gene.

*Literature published using this strain should indicate: Aaas-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
