

Agt-Flox

Nomenclature	C57BL/6Smoc-Agt ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Agt	Synonyms	Angl, AngII, Aogen, AI265500, Serpina8
	NCBI ID	11606
	MGI ID	87963
	Ensembl ID	ENSMUSG000000031980
	Human Ortholog	AGT

Model Description

These mice carry loxP sites flanking target exons of Agt gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Agt gene.

*Literature published using this strain should indicate: Agt-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
