

Ifng-Flox

Nomenclature	C57BL/6Smoc- <i>Ifng</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-220246
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Ifng	Synonyms	lfg; IFN-g
	NCBI ID	15978
	MGI ID	107656
	Ensembl ID	ENSMUSG00000055170
	Human Ortholog	IFNG

Model Description

These mice carry loxP sites flanking exon1-3 of Ifng. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Ifng gene.

*Literature published using this strain should indicate: Ifng-Flox mice (Cat. NO. NM-CKO-220246) were purchased from Shanghai Model Organisms Center, Inc..
