

Mslnl-Flox

Nomenclature	C57BL/6Smoc- <i>Mslnl</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Mslnl	Synonyms	4732467B22
	NCBI ID	328783
	MGI ID	3607710
	Ensembl ID	ENSMUSG000000041062
	Human Ortholog	MSLNL

Model Description

These mice carry loxP sites flanking target exons of Mslnl gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Mslnl gene.

*Literature published using this strain should indicate: Mslnl-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
