

Batf3-Flox

Nomenclature	C57BL/6Smoc- <i>Batf3</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Batf3	Synonyms	Snft, 9130211I03Rik
	NCBI ID	381319
	MGI ID	1925491
	Ensembl ID	ENSMUSG000000026630
	Human Ortholog	BATF3

Model Description

These mice carry loxP sites flanking target exons of Batf3 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Batf3 gene.

*Literature published using this strain should indicate: Batf3-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
