

Galns-Flox

Nomenclature	C57BL/6Smoc- <i>Galns</i> ^{em1(flox)Smoc}
Cat. NO.	NM-CKO-2119399
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Galns	Synonyms	mFLJ00319
	NCBI ID	50917
	MGI ID	1355303
	Ensembl ID	ENSMUSG000000015027
	Human Ortholog	GALNS

Model Description

These mice carry loxP sites flanking exon 2-4 of GALNS gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of GALNS gene.

*Literature published using this strain should indicate: Galns-Flox mice (Cat. NO. NM-CKO-2119399) were purchased from Shanghai Model Organisms Center, Inc..
