

Snca-KO

Nomenclature	C57BL/6Smoc- <i>Snca</i> ^{em1Smoc}
Cat. NO.	NM-KO-190380
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Snca	Synonyms	alpha-Syn alphaSYN alpha-synuclein
	NCBI ID	20617
	MGI ID	1277151
	Ensembl ID	ENSMUSG00000025889
	Human Ortholog	SNCA

Model Description

This Snca knockout mouse model was generated by knocking out the exon4 region of the Snca.

Research Application: Immune-related, Parkinson disease

*Literature published using this strain should indicate: Snca-KO mice (Cat. NO. NM-KO-190380) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
