

Ccn2-Flox

Nomenclature	C57BL/6Smoc- <i>Ccn2</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Ccn2	Synonyms	Ctgf, Hcs24, Fisp12, fisp-12
	NCBI ID	14219
	MGI ID	95537
	Ensembl ID	ENSMUSG00000019997
	Human Ortholog	CCN2

Model Description

These mice carry loxP sites flanking target exons of *Ccn2* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Ccn2* gene.

*Literature published using this strain should indicate: *Ccn2*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
