

R26-CAG-CreERT2(SD)

Gene Summary

Model Description

These rats harbor a CAG-CreERT2-polyA cassette in the Rosa26 locus generated by homologous recombination.

Research Application: Cre recombinase tool

*Literature published using this strain should indicate: R26-CAG-CreERT2(SD) rats (Cat. NO. NR-KI-200003) were purchased from Shanghai Model Organisms Center, Inc..
