

Penk-Flox

Nomenclature	C57BL/6Smoc- <i>Penk</i> ^{em1(flox)Smoc}
Cat. NO.	NM-CKO-210032
Strain State	Repository Live

Gene Summary

Gene Symbol Penk	Synonyms	ENK, PPA, Penk1, AI326464
	NCBI ID	18619
	MGI ID	104629
	Ensembl ID	ENSMUSG000000045573
	Human Ortholog	PENK

Model Description

These mice carry loxP sites flanking exon 2 of Penk gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Penk gene.

*Literature published using this strain should indicate: Penk-Flox mice (Cat. NO. NM-CKO-210032) were purchased from Shanghai Model Organisms Center, Inc..
